

## Client Testimonial

*As a single, self-employed expat woman in Hong Kong, I really appreciate Horwath's "Women's Wealth" service.*

*The financial advisors I've dealt with at Horwath take the time to understand me, my business and my needs; they explain my options in plain English, and they keep in touch with me regularly.*

*For me, it's not about their technical competence and their knowledge of all the products on the market - every financial planner promises that; it's about building and maintaining a relationship of trust and friendship.*
